### UNIS Releases *Mini Train* and *Fruit Mania Xtreme*

**U**NIS Games recently steamed onto the market with its new *Mini Train* kiddie ride. The factory has also launched *Fruit Mania Xtreme*, the firm's newest video pusher.

Factory execs say young passengers will line up to get onboard the new *Mini Train* express. The ride features cool smoke effects, an interactive game to play while riding, whistles and a gentle rocking motion.

"The safe, smoke effects are a real eye catcher, attracting the attention of every passing would-be little train driver," said UNIS sales pro Debbie Gonzalez. "The juice that creates the smoke effect is easy for the operator to

replace, and the unit is compact and gel coated for durability."

*Mini Train* is now shipping in the U.S. and Europe.

Originally debuted at the 2012 IAAPA, *Fruit Mania Xtreme* is a variation of the firm's companion title *Fruit Mania SD*. This video-style pusher machine offers the player skill-based excitement with rapid coin shooting action and simple game play.

Players aim and shoot coins at the rotating fruits to drain their health bars and the

fruits will turn into treasure boxes, falling onto the platform. Each time coins/boxes drop into the Winning Zone, the player wins tickets. When coins/boxes drop into the Prize Wheel Trigger, it activates the Prize Wheel for a chance to win more tickets or receive special items.

"This great game seems to have captured the imagination of players everywhere. Every aspect of the machine's design and its performance is popular," said Steven Tan, G.M. at UNIS.
